## Planting A Tree

First you take a seed and you  
plant it in the ground  
The ground, the ground - you  
plant it in the ground  
Then you get some water and you  
pour it all around  
Around, around - you pour it all  
around  
Then you give it air  
And then you give it time  
Then a tree will start to grow  
Hey isn't that fine.
