

Weekly Work Plans for KG, P1 and P2

In an endeavour to stay connected with our students, teachers will be uploading weekly work plans on the school website. Using screens as learning tools, students will be recapitulating/reinforcing what they have already accomplished in the previous academic session and will also be introduced to new concepts. Parents are requested to help their wards access the links provided, which aim at enhancing learning outcomes through fun-filled activities. Written tasks, if any, can be performed on either print-outs or in any available notepad/exercise notebook.

Wishing everyone good health and safe times!!
