

## **STEAM Education for Classes P1 and P2 (Academic Session 2020-21).**

During the last academic session, the school collaborated with NASCA- an organization that offers a comprehensive range of pedagogical approaches that integrate seamlessly with the school curriculum in the field of STEAM (Science, Technology, Engineering, Art and Math). Traditionally taught as separate subjects, STEAM aims at integrating them to inculcate a problem solving attitude in students and make complex subjects like Mathematics and Science relevant and engaging. Along with academics, online sessions will be conducted by NASCA instructors as per specified schedule. Concepts will be explained by trained faculty members and related practical applications will be demonstrated through videos.

### **Steps to enter an online classroom:**

- 1. Download Microsoft Edge and Microsoft Teams on your device.**
- 2. Copy the class specific link, paste it into the URL section of Microsoft Edge and press Enter.**
- 3. When directed to Microsoft Teams, click to join in as guest.**
